Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 185, Nos. 1 & 2, August 1998

A. Al-Bader, H. Abul, T. Hussain, M. Al-Moosawi, T.C. Mathew and H. Dashti: Selenium and liver cirrhosis 1–6

R. Vento, M. Giuliano, M. Lauricella, M. Carabillò, D. Di Liberto and G. Tesoriere: Induction of programmed cell death in human retinoblastoma Y79 cells by C_2-ceramide 7–15

O. Berdeaux, J.P. Blond, L. Bretillon, J.M. Chardigny, T. Mairot, J.M. Vatèle, D. Poullain and J.L. Sébédio: *In vitro* desaturation or elongation of mono*trans* isomers of linoleic acid by rat liver microsomes 17–25

T. Muramatsu, T. Imai, H.-M. Park, H. Watanabe, A. Nakamura and J. Okumura: Gene gun-mediated *in vivo* analysis of tissue-specific repression of gene transcription driven by the chicken ovalbumin promoter in the liver and oviduct of laying hens 27–32

M. Park, C. Yong Kang and P. Krishna: *Brassica napus* hsp90 can autophosphorylate and phosphorylate other protein substrates 33–38

G.J. Kotwal, C.G. Miller and D.E. Justus: The inflammation modulatory protein (IMP) of cowpox virus drastically diminishes the tissue damage by down-regulating cellular infiltration resulting from complement activation 39–46

C. Pignatti, I. Stanic, C. Stefanelli, B. Tantini, C. Rossoni and F. Flamigni: Modulation of the induction of ornithine decarboxylase by some opioid receptor agonists in immune cells and cardiomyocytes 47–53

J.S. Scheele: cAMP-dependent phosphorylation and hexamethylene-bis-acetamide induced dephosphorylation of p19 in murine erythroleukemia cells 55–63

H. Löster and M. Punzel: Effects of L-carnitine on mechanical recovery of isolated rat hearts in relation to the perfusion with glucose and palmitate 65–75

A. Muthukumar and R. Selvam: Role of glutathione on renal mitochondrial status in hyperoxaluria 77–84

M. Thangaraju, J. Rameshbabu, H. Vasavi, S. Ilanchezhian, R. Vinitha and P. Sachdanandam: The salubrious effect of tamaxifen on serum marker enzymes, glycoproteins, and lysosomal enzymes level in breast cancer women 85–94

G. Mikala, U. Klöckner, M. Varadi, J. Eisfeld, A. Schwartz and G. Varadi: cAMP-dependent phosphorylation sites and macroscopic activity of recombinant cardiac L-type calcium channels 95–109

J.S. Scheele, R.B. Pilz, G. Clark, N. Gupta, D. Loo, P. Martis and G.R. Boss: Decreased phosphorylation of a low molecular weight protein by cGMP-dependent protein kinase in variant HL-60 cells resistant to nitric oxide- and cGMP-induced differentiation 111–121

E.B. Affar, M. Dufour, G.G. Poirier and D. Nadeau: Isolation, purification and partial characterization of chloragocytes from the earthworm species *Lumbricus terrestris* 123–133

J. Mendicino and S. Sangadala: Purification and characterization of UDP-GalNAc:polypeptide N-acetylgalactosaminyl transferase from swine trachea epithelium 135–145

G. Cavallini, P. Bovo, E. Bianchini, A. Carsana, C. Costanzo, M. Merola, D. Sgarbi, L. Frulloni, V. Di Francesco, M. Libonati and M. Palmieri: Lithostathine messenger RNA expression in different types of chronic pancreatitis 147–152

T. Katsumata, T. Murata and M. Yamaguchi: Alteration in calcium content and Ca^{2+}-ATPase activity in the liver nuclei of rats orally administered carbon tetrachloride 153–159

S.J. Hemmings and A. Shuaib: Hypothyroidism-evoked shifts in hippocampal adrenergic receptors: Implications to ischemia-induced hippocampal damage 161–169

M. R. Rao, K.D. Olinde and A.K. Markov: *In vitro* induction of nitric oxide by fructose-1,6-diphosphate in the cardiovascular system of rats 171–175

J. Campión, V. Lahera, V. Cachofeiro, B. Maestro, N. Dávila, M. del Carmen Carranza and C. Calle: *In vivo* tissue specific modulation of rat insulin receptor gene expression in an experimental model of mineralocorticoid excess 177–182

P. Pacher, V. Kecskemeti, A.Z. Ronai, I. Balogh, G. Szalai and B. Matkovics: Changes in cardiac electrophysiology, morphology, tissue biochemistry and vascular reactions in glutathione depleted animals 183–190

J.T. Crabtree, M.J. Gordon, F.M. Campbell and A.K. Dutta-Roy: Differential distribution and metabolism of arachidonic acid and docosahexaenoic acid by human placental choriocarcinoma (BeWo) cells 191–198

F.R. Sallmann, Y.D. Plancke and G.G. Poirier: Rapid detection of poly(ADP-ribose) polymerase by enzyme-linked immunosorbent assay during its purification and improvement of its purification 199–203

G. J. van der Vusse, R. N. Cornelussen, T.H.M. Roemen and L.H.E.H. Snoeckx: Heat stress pretreatment mitigates postischemic arachidonic acid accumulation in rat heart 205–211
